

## Final Exam Details

### Exam Details

- ❑ For time and venue: consult the ARR schedule
- ❑ It will be approximately 2 hours 30 minutes long
- ❑ There will be approximately 25 questions
- ❑ Probable arrangement:
  - Questions 1-10 are each worth 3 marks each, multiple choice
  - Questions 11-19 are each worth 5 marks each, multiple choice
  - Questions 20-25 require written response, and are worth 25 marks in total
- ❑ Many of the questions are longer than the questions in the midterm

### More Details

- ❑ Exam questions could be about anything discussed in the course (before or after the midterm exam)
- ❑ The exam is an open book, open notes exam
- ❑ You can take any textbook(s) you want, any course notes (with or without annotation), any printed web pages, printed source code, etc
- ❑ Take your HKUST card, a calculator, some pencils, a ruler
- ❑ You can't use a computer, tablet or mobile phone
- ❑ You can't share anything with other people during the exam

### Topics Covered

- ❑ There won't be any questions on VBScript code, Canvas code, XSL/XSLT code - although you must understand the concepts of these things and where they might be used in an Internet system
- ❑ There can be questions on anything else we have covered (if properly covered during a lecture, or covered in a lab or a project)
