

# **ELEC 1020 LAB 6:**

## **Basic Video Editing with Adobe Premiere Pro 5.5**

# Outcomes of this lab

1. Learn how to edit a video
2. Learn how to stitch multiple clips into a single video
3. Create a video montage with effects, transitions, images and subtitles.

## Attention

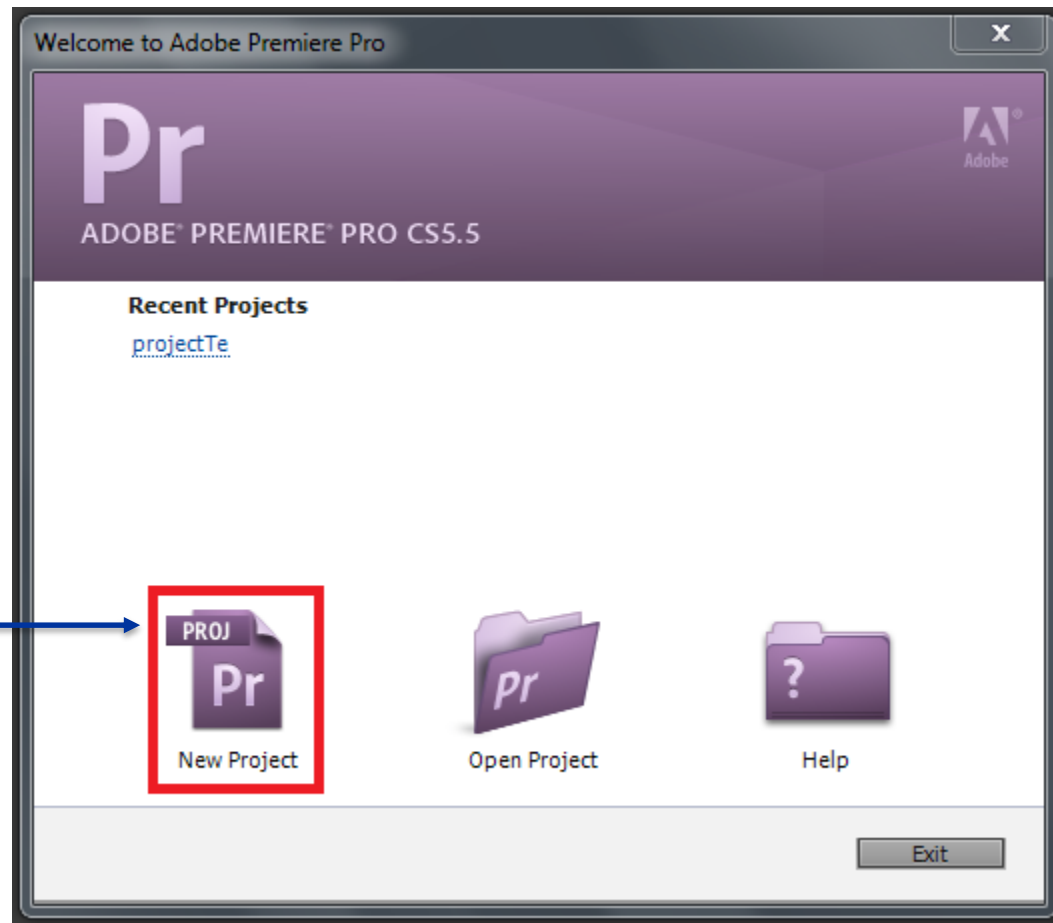

- Save your work to 'D:\temp\yourID'

# Scoring Rubric For the Labs

max. 4 (100% ) out of 4	4 (100%) Exceeds Standard	2 (50%) Meets Standard	1 (25%) Approaches Standard	0 (0%) Fails
Evaluation of your production in terms of design and technical effectiveness	On top of the standard deliverables, students showed unusual insight, complexity, originality, or creativity with their message or choice of an art form or medium to express it.	Students completed <b>ALL</b> required messages and reproduced the expected art form or medium.	Students <b>partially</b> completed the required messages and reproduced the expected art form or medium.	Students <b>FAILED to complete any</b> required messages and reproduced the expected art form or medium.
	Work shows <b>rich</b> evidence that student researched his/her <b>OWN</b> ideas, art form, and the techniques of his/her art form.	Work shows <b>full</b> evidence that students completed the required ideas, art form, and the techniques of art form expected.	Work shows <b>partial</b> evidence that students completed <b>some</b> required ideas, art form, and the techniques of art form expected.	Work shows <b>NO</b> evidence that students completed any required ideas, art form, and the techniques of art form expected.

# Lab Contents

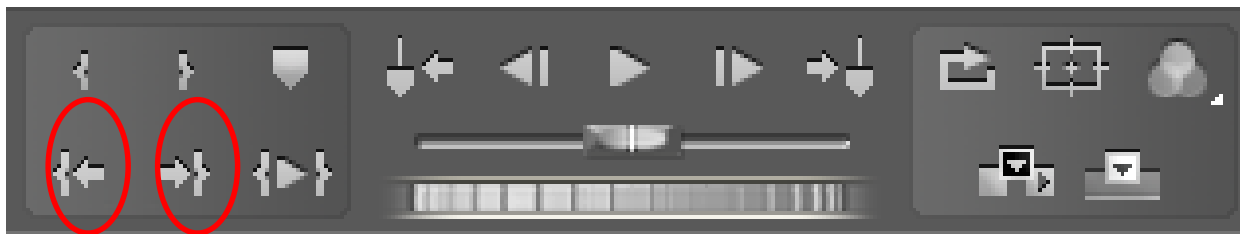

- Making video and audio clips
- Add images, title, subtitles, logo
- Effects, transitions and animations
- Publish your video

# Video Editing

- Step 1: Select “File->Import” to import your source video files. Imported files will be listed in the project panel.
- Step 2: Drag a source video file from project panel into the source monitor.
- Step 3: Press play button on the source monitor panel to preview the source video file.
- Step 4: Press “Set In Point” (shortcut: I) on the panel to choose a beginning point of the part you want.

# Video Editing

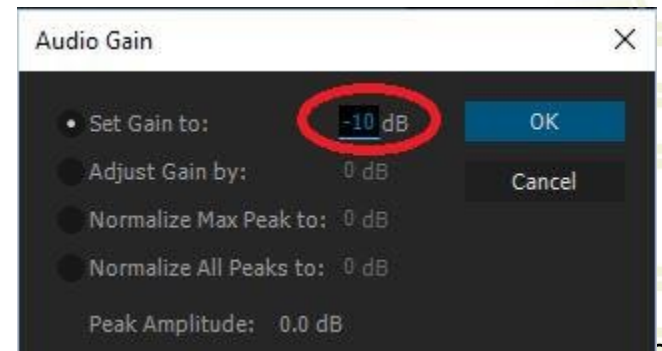

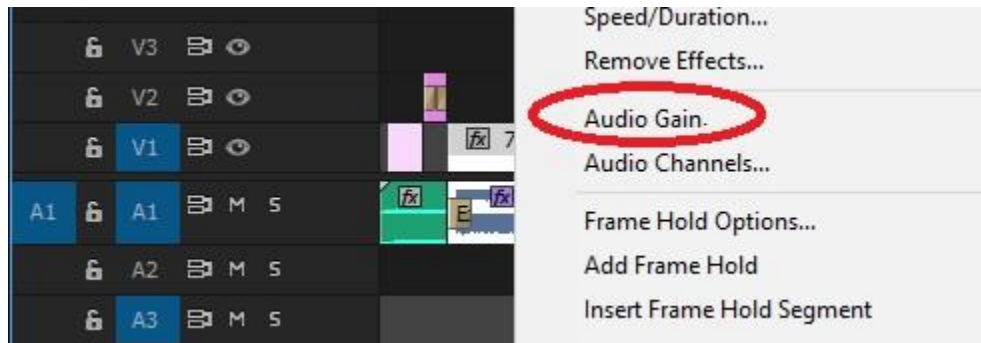

- Step 5: Press “Set Out Point” (shortcut: O) to choose the end of the part you want.
- Then the part you selected will be highlighted.
- Step 6: Press “Insert” (shortcut: , ) to insert the selected part into the timeline.
- (Hint: Images can also be imported in the same way)

# Adding Music

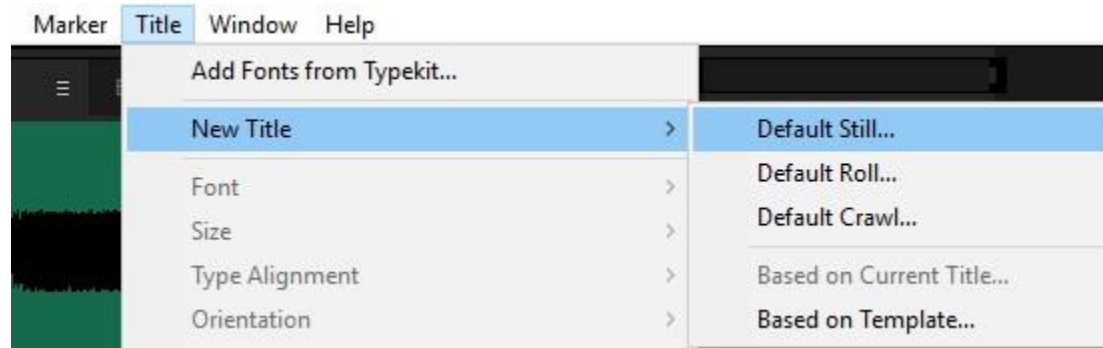

- Step 1: Import a background music file to the project panel.
- Step 2: Drag and drop the background music file to an audio track.

You can adjust the volume of audio tracks by right clicking the audio and going to audio gain.

# Adding Text

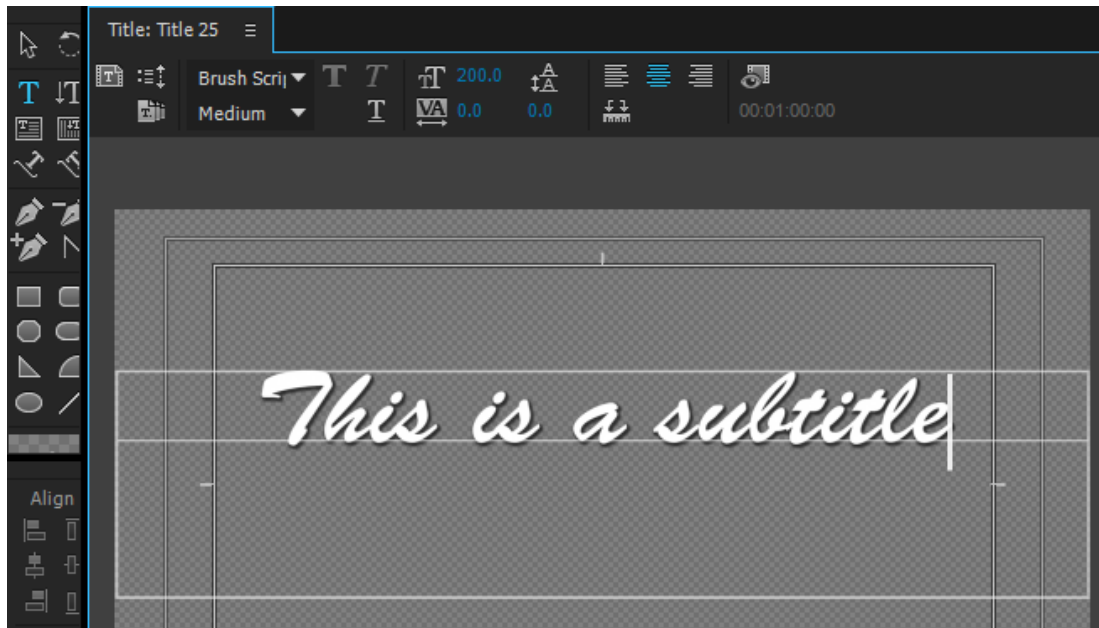

- Step 1: Select File->New->Title to activate the title editor

- Step 2: Edit your title by using the tools provided.
- Step 3: Close the dialog when you finish; your title will appear in the project panel.
- Step 4: Drag your title to an empty video track.

**Do not add your title onto an existing video clip.  
Otherwise, the title will appear on top of the video.**

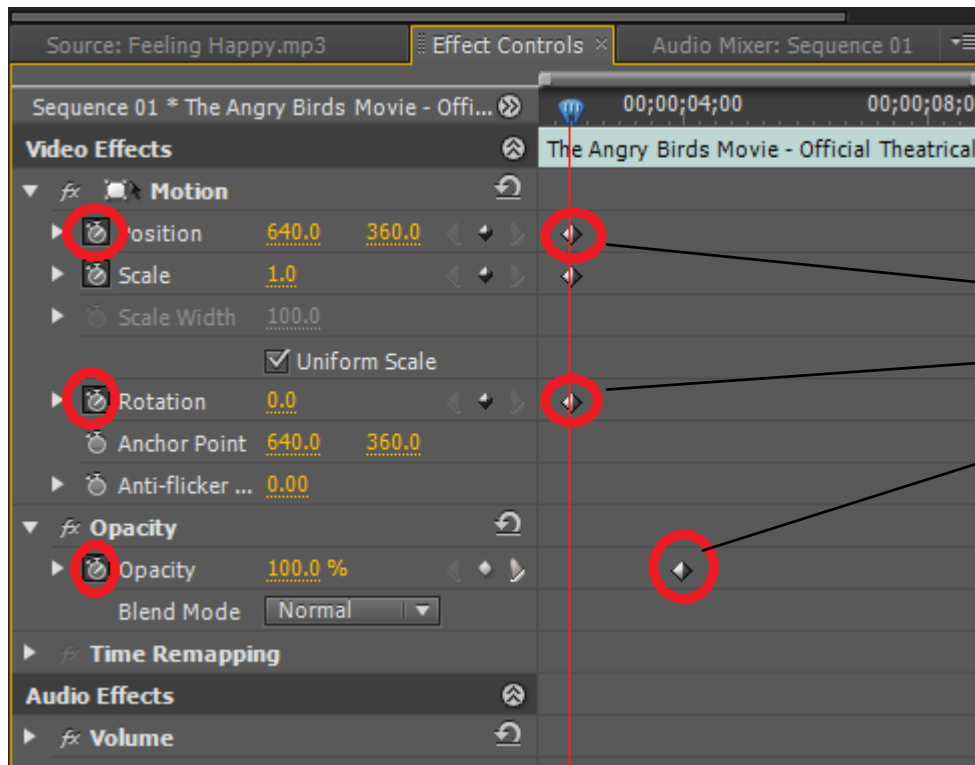

# Adding Text (Cont. 1)

- This is the window to edit your text.
- Position the subtitle in appropriate position to synchronize with corresponding video

# Add Effects to Images and Text

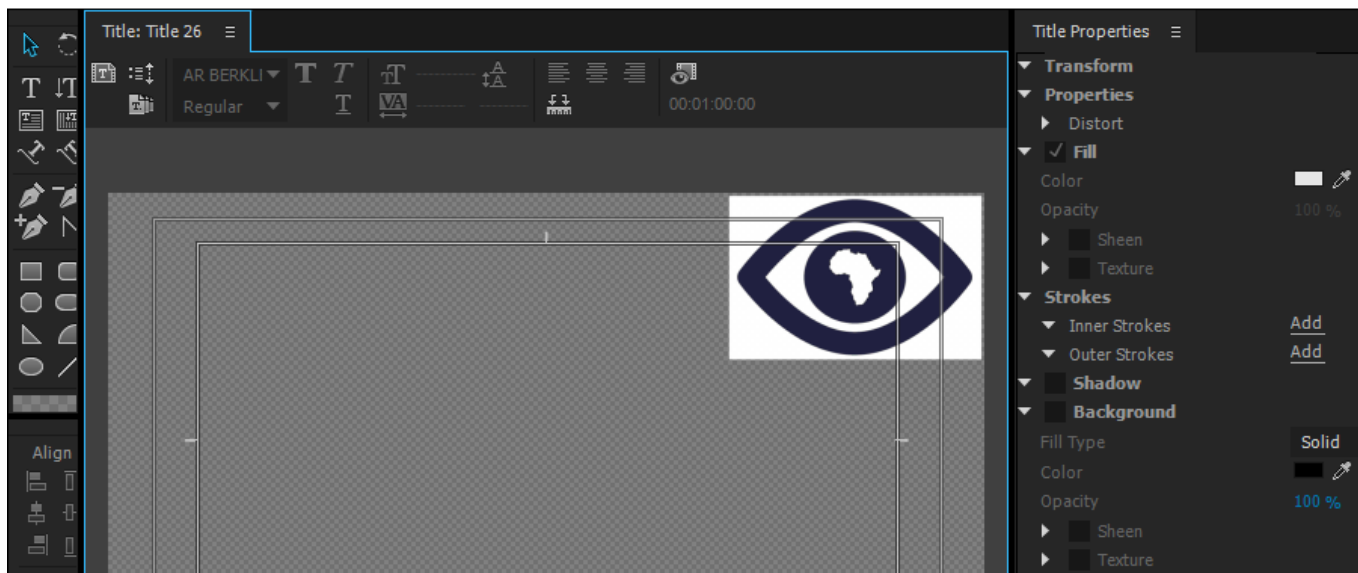

- Load image -> Go to effect controls
- Clicking on the “watch” toggles a keyframe

*Keyframes  
where you  
can do  
animation*

# Adding a Logo

- **Make a title first.** Then click on “Title” in the **main** workspace and add your logo image.
- PNG preferred as otherwise background can be invisible (refer to lab 1 and 2).

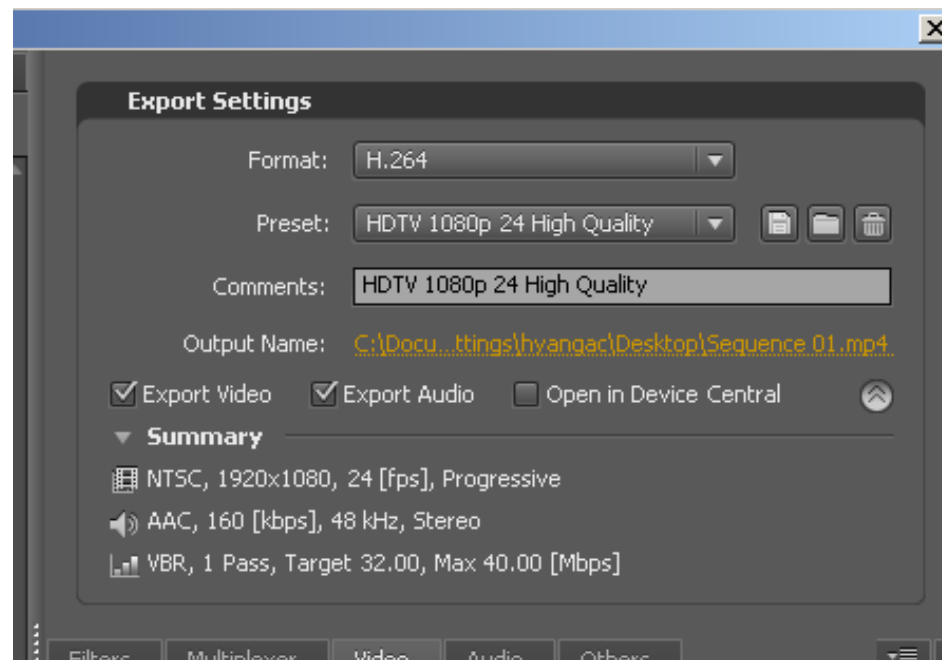

- Make it span the entire length of the video

# Export Your Movie

- Step 1: Click on the timeline panel to activate it
- Step 2: Choose File->Export->Media.
- Step 3: Chose the destination you want to save your file.  
Then go to the exporting setting dialog.

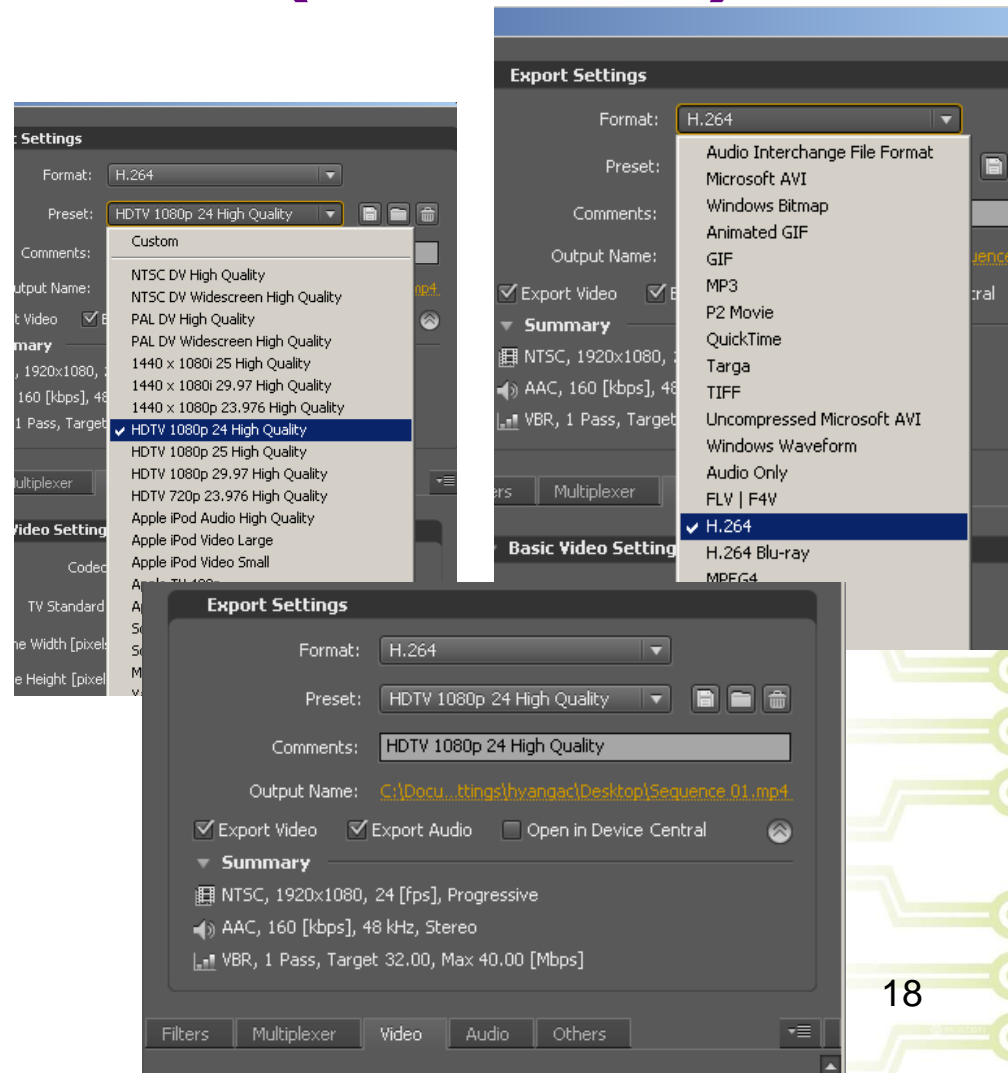

# Export Your Movie (Cont. 1)

- A typical format setting is:

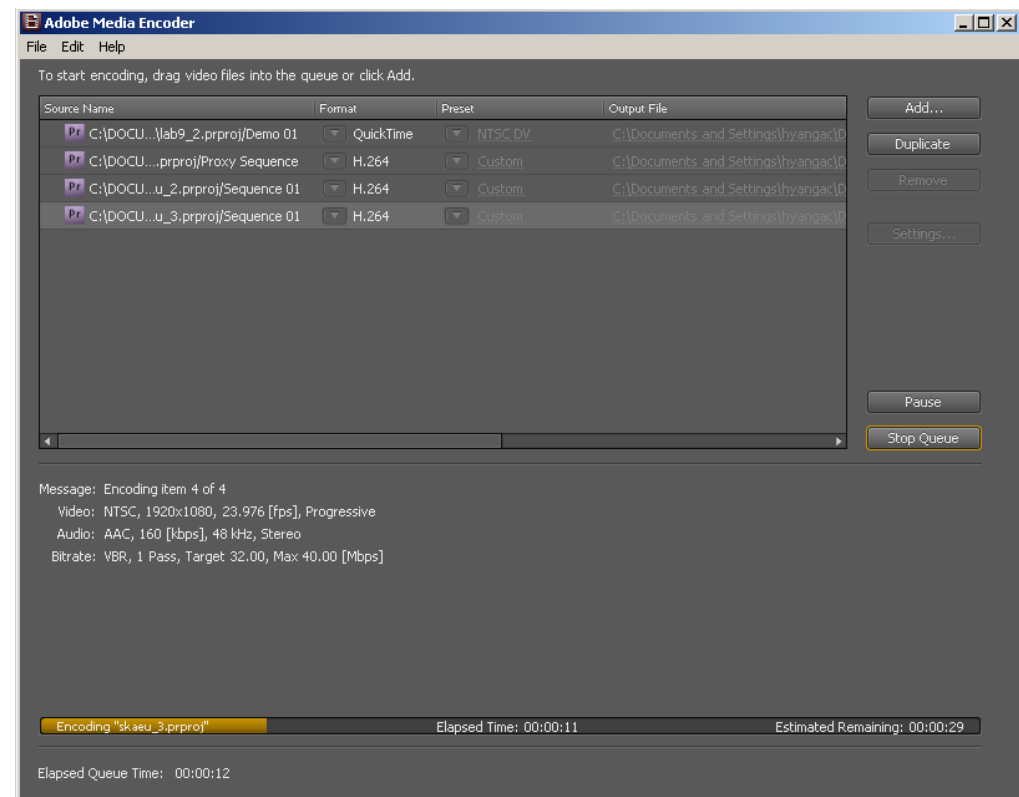

- 1. Format-> H.264*
- 2. Preset-> HDTV 1080p  
24 High Quality*

Step 4: Make sure to select all the video, audio and images to export. Then press “OK”.

# Export Your Movie (Cont. 2)

- Step 5: When finishing all the steps before, click “Export” to start the export.

# Basic Task 1 (individual)

- Shorten the video ([link here](#)) to 1.5 mins and add:
  - The NGO logo, and a title
  - Suitable transitions effects (also on audio)
  - Audio effects
- Post a YouTube link to the Facebook post using:
  - YouTube ID: elec1020.2016spring@gmail.com
  - PW: elec1020issofun
- It should take less than 30 minutes

# Basic Task 2 (3 ppl a group)

- Create a storyboard (>3x3) for a 30s video to convey the following message(s) of the NGO (New Sight 目養計劃):
  - Message 1: to arouse public awareness about the vision impairment issue among developing countries through facts & figures
  - Message 2: to promote the work of the organization and to make a call to give to the cause
- Use all proper techniques with design principles and following Materials:
  - 1) [footages and images](#), 2) [a video](#), 3) [website](#), 4) [facts and figures](#)
- Post your storyboard to the Facebook post **with the message(s)** you pick (comments will be given)

# Creative Task (3 ppl a group)

- Create a 30s video with the storyboard you created in the basic task 2 with the same group
- Post the YouTube link to Facebook before
  - Session1 :Sun. NOON
  - Sessions 2/3: Mon. NOON
- Use the following account:
  - Account name: [elec1020.2016spring@gmail.com](mailto:elec1020.2016spring@gmail.com)
  - Password: elec1020issofun
  - -20% for not using this account or late (-40% for both)
  - Post with IDs of your group members
